

This web application is much like the android application 'Pass By' which I developed on android studio without the map functionality. This site allows users to post advertisements for which other users may then contact them. Comments can be posted, and each user has an average rating. This application was built using Ruby on Rails. See screen shot below of the page layouts.

	<p>This screen shot is the main page, users will be able to sign in, register or simply view any posts. Unfortunately, due to time constraints the search functionality does not work.</p>
	<p>In this screenshot, once a post has been clicked by a user, we can immediately see the details of the post.</p> <p>You will see the image, the author's name, email and the details of the post.</p> <p>The user will also can contact the seller directly once registered with the site.</p>
	<p>Simple contact page</p>

In this page, we are viewing another user's profile, we can see the user's details and all their associated posts. A registered user also has the ability to leave a comment and a rating.

 <p>The login page features a title 'Log in' at the top. Below it is a form with two input fields: the first contains the email 'nk00374@surrey.ac.uk' and the second contains a masked password '.....'. A 'Log in' button is positioned below the password field. Underneath the button is a checkbox labeled 'Remember me'. At the bottom of the form area, there is a link 'Don't have an account? Register Now' and another link 'Forgot your password?'. A 'Back' button is located at the bottom right of the form container.</p>	<p>Simple login page, allowing the user to log in.</p>
 <p>The 'Forgot your password?' page has a title 'Forgot your password?' at the top. Below the title is a single input field with the placeholder text 'Enter your email'. A button labeled 'Send me reset password instructions' is located below the input field. A 'Back' button is positioned at the bottom right of the form container.</p>	<p>Forgot password page, allows the user to reset their password.</p>
 <p>The registration page is titled 'It Begins now...'. It contains a form with three input fields: 'Enter your email', 'Enter a new password', and 'Re-type new password'. Below the password fields, there is a note '6 characters minimum'. A 'Sign Up' button is located below the 'Re-type new password' field. At the bottom of the form area, there is a link 'Already have an account? Log in now!'. A 'Back' button is positioned at the bottom right of the form container.</p>	<p>Register page, allows the user to register with the site.</p>
